

## Reference Letter

To Whom it may concern

We hereby confirm that in last ten years Alstema Ltd. has executed large number of contracts as one of ours main subcontractor. Scope of work included designing, manufacturing, FAT testing, delivering, installation on site in Poland and abroad and site testing of Medium Voltage Busducts including Isolated Phase type and Non-Segregated Phase type.

Busduct rating for executed projects were between 1- 32 kA (nominal current) and 12-36 kV voltage rating (insulation level).

The latest executed projects were:

- Opole TPP in Poland (2 x 950MW Units) 36kV, 25,5kA
- Kozienice TPP in Poland (1075MW Unit) 36kV, 32,5 kA
- Jaworzno TPP in Poland (900 MW) 12kV, 5kA
- PP12 CCPP in Riyadh 13kA/30kV, 7,5kA/24kV
- Khoms Fast Track in Libia 11,5kA/24kV
- Ras Djinet in Algieria 14kA/24kV
- Shaturskaya TPP in Russia 17kA/30kV

All the contract were executed in timely manner with fulfilment of highest quality requirements with full cooperation and friendly atmosphere, all deadlines were achieved by Alstema without delay in execution.

We recomend Alstema Ltd. as a reliable partner and specialised manufacturer of MV Busduct systems to all the potential Customers in power engineering sector.

Best regards
